

NOTICE

This is to serve as notice to the Town of Grafton that a commercial site located on Route 121 in the Town of Grafton, State of Vermont, formally known as TER Industries/the Unified Data Building (Vermont Site # 770112) has been recommended, by the Agency of Natural Resources, for Site Management Activity Completed (SMAC) designation. The lot and parcel number on the Grafton tax maps is 9-91. This recommendation is based on available site information that indicates the site does not pose a significant threat to human health or the environment.

Prior to any subsurface work in the area surrounding MW-2, beneath the concrete floor in the vicinity of the former solvent storage room, the former floor drain terminus and underground storage tank location, the Agency of Natural Resources, Sites Management Section, must be notified. The status of this site may only be removed, updated or altered by the Agency of Natural Resources, Sites Management Section.
